

# Missing & Mixed-Up Order Complaints — BBT

Baseline and ongoing reporting request

|                 |                |                       |                    |
|-----------------|----------------|-----------------------|--------------------|
| <b>To</b>       | Data / BI Team | <b>Brand</b>          | BBT (all branches) |
| <b>From</b>     | Project Team   | <b>Required by</b>    | 02-Aug-2026        |
| <b>Priority</b> | High           | <b>Classification</b> | Internal           |

## 1. What we need

A baseline of customer complaints for **missing items** and **wrong / mixed-up orders** across all BBT branches, together with **order volumes**, so we can track the complaint **rate** over time and identify the branches most affected.

## 2. Definitions

| TERM                    | MEANING                                                                |
|-------------------------|------------------------------------------------------------------------|
| <b>Missing item</b>     | Customer reports one or more ordered items were absent from the order. |
| <b>Wrong / mixed-up</b> | Customer received a different order or the wrong item(s).              |
| <b>Complaint rate</b>   | In-scope complaints per 1,000 orders (the reporting metric).           |

## 3. Data required

| DATASET             | FIELDS                                                                                                                                                                              |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Complaints</b>   | Date · business date · branch (name + code) · order number · channel / aggregator · category (missing / wrong / mixed-up) · item(s) affected · resolution & refund amount (if any). |
| <b>Order volume</b> | Orders per branch, per day, per channel — used as the denominator for the rate.                                                                                                     |

## 4. Period & granularity

| VIEW             | PERIOD              | GRANULARITY |
|------------------|---------------------|-------------|
| Trend            | Last 12 months      | Monthly     |
| Working baseline | Last 12 weeks       | Daily       |
| Ongoing          | From go-live onward | Daily       |

**Headline metric:** missing + mixed-up complaints **per 1,000 orders** (12-week average), reported overall and per branch. Please include the raw counts alongside the rate.

## 5. Breakdowns & outputs

- **Branch ranking** — all branches, highest complaint rate first.
- **By type** — missing vs wrong/mixed-up.
- **By channel / aggregator** — dine-in, pickup, each partner.
- **Top 20 items** most reported as missing.
- **Monthly trend** and **daily series** (counts + rate).

## 6. Branches in scope — BBT

| #  | BRANCH                 | CODE       |
|----|------------------------|------------|
| 1  | ADL-BBT                | 4865153615 |
| 2  | ARD-BBT                | 65322      |
| 3  | BBT-JBR                | 461256821  |
| 4  | BYN-BBT                | 4455530    |
| 5  | JHR-BBT                | 00652      |
| 6  | KHR-BBT                | 5653549    |
| 7  | KWT-BBT                | 010709     |
| 8  | MIS-BBT                | 000111     |
| 9  | MNF-BBT                | 4455531    |
| 10 | OMH-BBT — Um Al Haiman | 6354125    |
| 11 | SAD-BBT                | 9883121    |
| 12 | SAL-BBT                | 00321      |
| 13 | SBA-BBT                | 5121651020 |
| 14 | SHD-BBT                | 6512       |
